## Saves

When doing something risky, the Facilitator (GM) will call for a Save with a certain stat.
e.g. "Make a Dex Save"

Roll a d20 and compare your current stat to your roll.

If you rolled equal or under you succeed

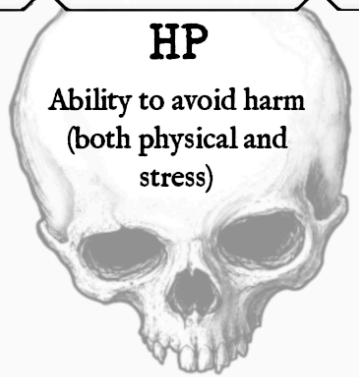

**Control**
willpower, charm, weird, emotion

**Dexterity**
readiness, grace, precision, subtly

**Strength**
brawn, toughness, endurance

## HP

Ability to avoid harm (both physical and stress)

## Damage

Damage & Stress reduce your HP first. When HP is 0 it then will reduce from your stats

## Healing

A safe moment away from danger is enough to fully restore HP

## Actions

On your turn, you may move 40 feet and take a single action.

## Combat

All attacks auto-hit. The weapon states which dice to use for damage rolls (defaults to d4).

## Inventory

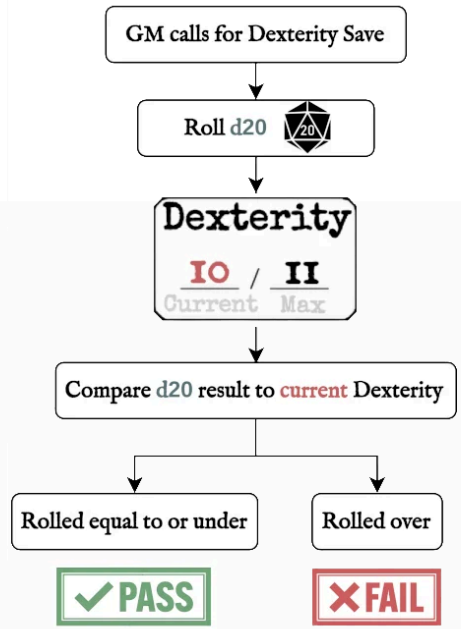

- You have 10 Inventory Slots
- An item takes up one Slot
- You can dual wield weapons, attacking with both at once!

## Saves

When doing something risky, the Facilitator (GM) will call for a Save with a certain stat.
